Stories *in light.*

People. Places.
The feeling in between.

PHOTOGRAPHY / FILM / AERIALS

Curiosity, *with purpose.*

Based in Zurich, I create photographs and films about people, places and the moments that connect them. Since beginning photography in 2012, my practice has grown across portraits, documentary, live music, festivals and commercial projects.

Travels through Australia, Asia and Europe shaped the way I look and listen. Today, I bring that attention to every commission: understanding what matters, finding its visual character, and delivering with care.

BEHIND THE WORK

Elsewhere.

The unfamiliar makes us look again. A road at sunrise, a distant figure, a landscape opening beyond the next bend.

02 / PORTRAITS

A presence.

A portrait begins with trust. Enough direction to feel at ease;
enough space to remain yourself.

04 / STREET

An ordinary place.
An unexpected alignment.
A fraction of a second
that asks us to stop.

Held in *motion.*

Precision, effort, expression.
The instant a body becomes a line.
